DISTANCE RIDING - 40+ YEARS OF STORIES

Over 40 years ago I did my first Competitive Trail Ride and during those years I have met many horse loving people and formed some long-lasting friendships. I have ridden some of the most beautiful and challenging trails across North America and even in Holland. There is no better time than now to get together to tell some of our favorite experiences. Maybe your first trail event – a favorite trail or meal – horsemanship judges, etc. Many of us are getting close to riding our last trails and some dear friends are already riding in the sky. Let's make this a special day!
