

## **A Safe Return to Equestrian Events and Competitions**

**Addendum to  
NSEF Return to Equestrian Activity Guidelines**

**Effective March 9, 2021  
Subject to change**

**NS Public Health Guidelines and Safe Sport Principles must be followed  
at all times and take precedence over anything found in this document**

## Introduction

As the equestrian community enters year two of the Covid-19 pandemic and its impact on our return to sport, we have updated this addendum as additional information and guidelines reflected in the NSEF Return to Equestrian Activity document, first published on May 30, 2020, updated March 2021. In an effort to support event/competition organizers and participants, the NSEF's Return to Equestrian Events/Competition Plan Goals are:

1. To help reconnect our members and promote the well-being of our community through a safe and compliant return to our sport and participatory activities;
2. To provide guidance and tools to members and the equestrian community as a whole, for a safe return to equestrian events/competitions while adhering to NS Health Authority orders;
3. To protect our equestrian community;
4. To do our collective best to halt the spread of COVID-19.

## Risk Mitigation

**NS Public Health Guidelines and Safe Sport Principles must be followed at all times and take precedence over anything found in this document.**

In Nova Scotia, every event/competition committee/organizer must have a COVID-19 Safety Plan in place prior to restarting activities. This plan **must be in compliance with [orders and guidance from the Nova Scotia Health Authority](#)**.

Additionally, NSEF recommends that you check with your insurance provider to understand your coverage and any unique risks associated with the pandemic and consider seeking legal counsel to ensure your waivers are current and address current circumstances (sample safety plans, waivers and other helpful resources can be found at the end of this addendum or on the [NSEF Covid-19 Resource page](#)).

The health and safety of everyone coming to the facility or attending the activity is paramount. Every decision should be based around that premise. Some facilities may choose not to reopen or not resume certain activities based on their own setup, risk tolerance and the health of themselves, their family members, staff or clients. This is their right and should be respected.

It is important that we continue to take our cues from the Nova Scotia Health Authority and the provincial government. The sport specific guidelines are meant to supplement the requirements and recommendations from this authority. The ongoing implementation of the NS Government's Return to Sport Guidelines will be monitored and updated when circumstances change. NSEF's Return to Equestrian Activity and its Return to Events/Competitions Addendum is meant as a guide to help you develop your plan.

**All organizers hosting activities sanctioned by the NSEF will be required to agree to, and include the following disclaimer in their prize list recognizing the scope of NSEF's sanctioning:**

***"It is the responsibility of the show/event committee or organizers and the facility owners and managers to ensure that all NS Health Authority and NS WorkSafe directives are followed and enforced. NSEF is not a regulatory body and it is understood and agreed that sanctioning and approval of either an NSEF Provincial event or Equestrian Canada Bronze or Silver competition relates to the use of the rule book and approved officials only".***

## VENUE OWNERS/COMPETITION MANAGEMENT

### Covid-19 Contact Traceability Guidelines

Contact tracing is a process that is used to identify, educate and monitor individuals who have had close contact with someone who is infected with a virus. These individuals are at a higher risk of becoming infected and sharing the virus with others. Contact tracing can help individuals understand their risk and limit further spread of the virus.

The ability for an event/competition organizer to implement Covid-19 Contact Tracing protocols is a vital component to limiting the risk of Covid-19 community spread. These protocols should be supported by the appropriate waivers and agreements that ensure that all individuals understand and will comply to the Covid-19 mitigation plan. Sample waivers and attestation forms are included in the document. (These waivers are samples that can be used by organizers, but it is recommended that you review your waivers with your insurance provider and legal council.)

1. Organizer should establish their contact tracing to include (at minimum) name, email, phone, town/city, province and postal code.
2. In case of the need for notification, the organizer should establish the tracking method for contacts of on-site staff/volunteers/coaches/trainers/participants/veterinarians/farriers/parents/legal guardians
3. Organizers should establish **daily** tracking of all on-site individuals, and maintain those records for a minimum of three years.
4. Daily, all on-site staff/volunteers/coaches/trainers/participants/veterinarians/farriers/parents/legal guardians should complete an attestation/assumption of risk form which includes an agreement to abide by and follow the Covid mitigation plan.

  - (c) to be liable for and to hold harmless and indemnify the "Host" from all actions, proceedings, claims, damages, costs demands, including court costs and costs on a solicitor and own client basis, and liabilities of whatsoever nature or kind arising out of or in any way connected with my participation in "Equine Activities".
